

VAC 

VAC 

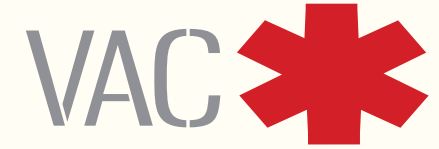

WORKING TOGETHER

About VAC

- HIV support, prevention, education, advocacy and health promotion
- Support and promote the health and wellbeing of sex, sexuality and gender diverse communities
- Offer secondary consultation and training to external providers
- LGBTIQ direct service provision: medical, sexual health, alcohol and other drugs, counseling, family and intimate partner violence
- Equinox / PRONTO! / Centre Clinic / Positive Living Centre

Specific interventions at VAC

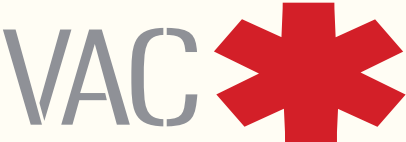

- **Individual AOD counselling and Care & Recovery Coordination:** Available to the wider LGBTIQ communities and people living with HIV.
- **Re-Wired** is a 6 week therapeutic group program for men who have sex with men who want to change their methamphetamine use
- **Re-Wired 2.0** is a peer led support group for more long term support for MSM who want to change their methamphetamine use
- **Drink Limits** is an 8 week therapeutic group program for same sex attracted women who want to change their alcohol use
- **Transformed** is a 6 week therapeutic group program for trans and gender diverse people who want to address their alcohol and other drug use
